**NOTICE OF APPLICATION FOR RATE INCREASE BY  
GOLDEN STATE WATER COMPANY  
ARDEN CORDOVA SERVICE AREA  
REQUEST FOR PUBLIC COMMENTS  
APPLICATION NO. 10-01-009**

Dear Valued Customer,

The California Public Utilities Commission (CPUC) is seeking public comments from Golden State Water Company's (GSWC) customers in the Arden Cordova Service Area regarding a proposed request by GSWC to increase rates for service in 2011 and 2012. As part of its decision-making process, the CPUC is interested in your comments on any aspect of the company's operation including proposed rates, service quality or any other issue of concern.

GSWC filed Application 10-01-009 on January 13, 2010 with the CPUC requesting authorization to increase revenue in the Arden Cordova Service Area by \$2,911,400 or 29.95% over present revenue for 2011, and an additional increase of \$321,200 or 2.55% in 2012. As an alternative, GSWC is recommending that the requested increases should be levelized between 2011 and 2012. Under GSWC's alternate recommendation, the requested increases would be \$2,046,600 or 21.06% over present revenue for 2011 and an additional increase of \$2,022,800 or 17.16% in 2012.

The proposed requested rate increases are necessary because the present rates are insufficient as they do not produce adequate revenue to allow for investment in plant, property and other equipment devoted to providing quality utility service to customers. GSWC contends that the increase in rates is necessary by the effects of the Company's investment in water system improvements, as well as increased operating costs for items such as the cost of wholesale water, postage, liability insurance, depreciation, materials, purchased services, the General Office allocated costs, labor and payroll taxes. If approved, the rate increases would fund more than \$9.1 million in local capital investments from now through 2012 that are critical to providing reliable, high quality water to the area.

GSWC amended A.10-01-009 on January 27, 2010 to request amortization of the under-collection in the Supply Cost Balancing Account in the Arden Cordova Customer Service Area as of August 31, 2009 by \$98,003 or 1.01% over present revenue for 2011.

GSWC is also requesting approval to convert from bi-monthly billing to monthly billing. The switch to monthly billing will help customers budget for their water bills more accurately and will also give them more immediate feedback on their usage to assist them in conserving water.

The table below shows the average monthly bill by customer class for metered and flat rate customers with the un-levelized increase.
